SUMMARY

As an ambitious Business Analyst Intern, I aim to apply my skills in requirements gathering, documentation, and market analysis to deliver secure, scalable IT solutions. Eager to contribute to business growth and system efficiency, I bring a proven track record of enhancing product development through analytical problem-solving and clear communication.

EXPERIENCE

Business Analyst Intern

Accenture

01/2024 - 01/2024 Virtual internship

- Analyzed customer feedback on IT services, leading to a 10% enhancement in custom software solutions offered by the company.
- Collaborated with a team to design a proof of concept for a blockchain- based transaction system, which gained positive feedback from 5 potential clients.
- Presented feasibility studies and technical requirement documentation for new SaaS products contributing to a smoother development lifecycle.
- Guided a system implementation for automated business processes, which decreased manual intervention by 30% for client companies.
- Captured and documented functional and technical requirements by directly liaising with stakeholders, resulting in a 15% reduction in project kick-off time.
